

Surround[®] Toothbrush

Experience a gentle, thorough clean in a single stroke

The Surround[®] Toothbrush unique 'triple headed' design provides for simultaneous brushing of gums and the front, back & biting surfaces of teeth optimising plaque removal

Features:

3 headed brush 'hugs and surrounds' teeth with 45 degree angled bristles to clean gums & all surfaces of the teeth with each and every stroke.

Cleans teeth in shorter period of time and more completely & efficiently than traditional 'single headed' toothbrushes.

Entire head & handle covered in a soft, non-slip cushion for easier grip and has a flexible structure. Comes with protective bristle cap.

AVAILABLE IN ADULT / CHILDREN sizes, great for:

- * Children learning to brush their teeth.
- * Caregivers brushing someone else's teeth.
- * Perfect for those who are 'non-compliant' or don't fully brush, particularly in hard to reach places.
- * Those with braces as angled bristles can clean under and around the bands.
